

# Tourist Mobile Application — Solution Design

## Table of Contents

1. Glossary .....	2
2. Executive Summary .....	0
2.1. Key Decision: Why Option 2 .....	0
3. Problem Statement .....	0
3.1. Current User Pain Point .....	0
3.2. Proposed Solution .....	0
3.3. Business Model .....	0
4. Architecture Options Overview .....	0
5. Option 1: MVP — Validate the Core Concept .....	0
5.1. Overview .....	0
5.2. What It Delivers .....	0
5.3. What It Doesn't .....	0
5.4. Architecture .....	0
5.5. Cost Breakdown .....	0
5.6. Timeline .....	0
5.7. Risk Assessment .....	0
6. Option 2: Validate + Monetize — RECOMMENDED ★ .....	0
6.1. Overview .....	0
6.2. What It Delivers (Beyond Option 1) .....	0
6.3. Why This Option Is Recommended .....	0
6.4. Architecture .....	0
6.5. Cost Breakdown .....	0
6.6. Timeline .....	0
6.7. Key Milestones .....	0
6.8. Scalability & Growth Roadmap .....	0
6.8.1. AI Cost Optimization Strategies .....	0
6.8.2. Custom ML Model — How It Works .....	0
6.9. Risk Assessment .....	0
6.10. China Market Entry — Architecture Reference .....	0
7. Option 3: All Features Day 1 .....	0

7.1. Overview .....	0
7.2. What It Adds Beyond Option 2 .....	0
7.3. Architecture .....	0
7.4. Cost Breakdown .....	0
7.5. Timeline .....	0
7.6. Trade-offs vs Option 2 .....	0
7.7. Risk Assessment .....	0
8. Scaling Path (Future) .....	0
8.1. Trigger Conditions .....	0
9. Technical Deep Dives .....	0
9.1. AI Recognition Strategy .....	0
9.2. Mobile Strategy: Native (Swift + Kotlin) .....	0
9.3. Database Strategy .....	0
9.4. Multi-Region Strategy .....	0
9.5. Security Architecture .....	0
10. Cost Estimation Methodology .....	0
10.1. Approach .....	0
10.2. Risk Buffer Justification .....	0
10.3. CAPEX Summary .....	0
11. Assumptions & Constraints .....	0
11.1. Assumptions .....	0
11.2. Constraints .....	0
12. Recommended Next Steps .....	0
13. Appendix: Artifact Inventory .....	0
13.1. Architecture Diagrams (3 options — inline PlantUML via Kroki) .....	0
13.2. Timeline Gantt Charts (inline PlantUML via Kroki) .....	0
13.3. Cost Analysis (inline AsciiDoc tables) .....	0
13.4. Related Documents .....	0
