1. Epic 1: Core Attraction Recognition

1.1. US-1.01.001: Photo Recognition of Attraction

As a tourist

I want to take a photo of an attraction with my phone camera OR upload an existing photo from my gallery

So that I can quickly get information about what I'm looking at

1.1.1. Acceptance Criteria

- User can access camera from the app
- User can take a photo within the app
- User can upload photo from phone's gallery
- Photo is captured and processed
- Loading indicator shows while processing
- System provides feedback if photo quality is insufficient
- Supports common image formats (JPG, PNG, HEIC)

Priority: MUST HAVE (POC)

1.2. US-1.02.002: View Attraction Description (Text)

As a tourist

I want to read a text description of the photographed attraction

So that I can learn about its history and significance

1.2.1. Acceptance Criteria

- Text description appears within 5 seconds of photo capture
- Description includes: name, historical context, significance
- Text is formatted for easy mobile reading
- User can scroll through longer descriptions
- Description supports multiple languages (based on phone settings)

Priority: MUST HAVE (POC)

1.3. US-1.03.003: Hear Attraction Description (Audio)

As a tourist

I want to listen to an audio description of the attraction

So that I can learn while continuing to look around

1.3.1. Acceptance Criteria

- Audio playback controls (play/pause/stop) are visible
- Voice-over is clear and at appropriate speed
- User can adjust volume
- Audio continues in background if user switches apps
- User can replay the audio

Priority: SHOULD HAVE (MVP)

1.4. US-1.04.004: Handle Unknown Attractions

As a tourist

I want to receive appropriate feedback when the app can't identify my photo, including suggestions for nearby known attractions

So that I know the system is working and can discover alternatives

1.4.1. Acceptance Criteria

- Clear message displayed when attraction cannot be identified
- System suggests nearby attractions based on GPS location
- Suggestions include distance and brief description
- Option to manually search for attraction
- Option to submit photo for future recognition
- "Explore nearby" button to see attractions within 5km radius

Priority: MUST HAVE (MVP)

2. Epic 2: Partner Ecosystem Discovery

2.1. US-2.01.005: View Nearby Partner Venues

As a tourist

I want to see recommended cafes, restaurants, and shops near the attraction

So that I can get the best places near me and redeem special offers

2.1.1. Acceptance Criteria

- List of partner venues appears after attraction description
- Each venue shows: name, distance, type, rating (if available), current offer
- Venues are sorted by distance or relevance

Highlights "exclusive offers" or "limited time" deals

- Maximum 5-10 venues shown initially
- "See more" option available
- Shows estimated walking time to each venue

Priority: MUST HAVE (MVP)

2.2. US-2.02.006: View Partner Venue Details

As a tourist

I want to view detailed information about a partner venue

So that I can decide if I want to visit

2.2.1. Acceptance Criteria

- Venue detail page includes: photos, description, hours, menu/services
- Shows distance and walking time from current location
- Displays available discount/offer prominently
- "Get Directions" button opens map navigation
- Option to save venue for later
- Shows user reviews/ratings if available

Priority: MUST HAVE (MVP)

2.3. US-2.03.007: Get Directions to Partner Venue

As a tourist

I want to navigate to a partner venue from my current location

So that I can easily find it

2.3.1. Acceptance Criteria

- Integration with device's native maps application
- One-tap navigation launch
- Shows estimated walking/driving time
- Works with Google Maps, Apple Maps, or other installed map apps

Priority: SHOULD HAVE (MVP)

3. Epic 3: Discount & Loyalty System

3.1. US-3.01.008: Generate QR Code for Discount

As a tourist

I want to generate a QR code to redeem a discount at a partner venue

So that I can save money on my purchase

3.1.1. Acceptance Criteria

- QR code generates instantly when venue is opened
- QR code is large and scannable
- Shows discount details above QR code
- QR code has expiration time displayed
- Works offline once generated
- Displays terms and conditions of the offer

Priority: MUST HAVE (MVP)

3.2. US-3.02.009: Redeem Discount (Partner Scan)

As a partner venue staff member

I want to scan a customer's QR code

So that I can verify and apply their discount

3.2.1. Acceptance Criteria

- Partner app/scanner validates QR code
- Shows discount amount/percentage
- Confirms redemption to both staff and customer
- Prevents duplicate redemptions
- Tracks redemption for analytics
- Works with standard QR code scanners

Priority: MUST HAVE (MVP)

3.3. US-3.03.010: View Discount History

As a tourist

I want to see my past discounts and visits

So that I can track my savings and favorite places

3.3.1. Acceptance Criteria

List of redeemed discounts with dates

- Shows venue names and amounts saved
- Total savings displayed
- Can view venue details from history
- History persists across app sessions
- Option to share savings achievements on social media

Priority: COULD HAVE (Full Release)

4. Epic 4: User Experience & Personalization

4.1. US-4.01.011: Select Preferred Language

As a tourist

I want to choose my preferred language for descriptions

So that I can understand the information in my native language

4.1.1. Acceptance Criteria

- Language selection available in settings
- Supports major tourist languages (English, Spanish, French, German, Chinese, Japanese, etc.)
- Changes apply to all descriptions
- Audio voice-over matches selected language
- Defaults to device language

Priority: SHOULD HAVE (MVP)

4.2. US-4.02.012: Adjust Content Detail Level

As a tourist

I want to choose between brief or detailed descriptions

So that I can get the right amount of information for my needs

4.2.1. Acceptance Criteria

- Toggle between "Quick Overview" and "Detailed Information"
- Quick overview: 2-3 sentences
- Detailed: full historical context
- Setting persists across sessions
- Can change per attraction

Priority: COULD HAVE (Full Release)

4.3. US-4.03.013: Save Favorite Attractions

As a tourist

I want to save attractions to a favorites list

So that I can revisit the information later

4.3.1. Acceptance Criteria

- "Save" button visible on attraction pages
- Favorites accessible from main menu
- Can remove from favorites
- Syncs across devices (if logged in)
- Includes photo and brief description
- Can organize favorites into custom lists/trips

Priority: COULD HAVE (Full Release)

4.4. US-4.04.014: Share Attraction Information

As a tourist

I want to share attraction details with friends and family

So that I can recommend places or plan group visits

4.4.1. Acceptance Criteria

- Share button available on attraction page
- Options: message, email, social media
- Shared content includes: photo, name, brief description, app link
- Does not require recipient to have app installed
- Can share entire trip itinerary

Priority: COULD HAVE (Full Release)

5. Epic 5: Offline & Performance

5.1. US-5.01.015: Cache Recent Searches

As a tourist

I want previously viewed attractions to load instantly

So that I can review information without waiting

5.1.1. Acceptance Criteria

- Last 10 attractions cached locally
- Cached content available offline
- Cache cleared when storage limit reached
- Option to manually clear cache in settings
- Shows cache status in app info

Priority: SHOULD HAVE (MVP)

5.2. US-5.02.016: Work with Limited Connectivity

As a tourist

I want basic app functionality when internet is slow or unavailable

So that I can use the app in remote locations

5.2.1. Acceptance Criteria

- Clear indication of offline mode
- Cached attractions remain accessible
- Generated QR codes work offline
- Queue photo uploads for when online
- Graceful error messages for unavailable features
- Background sync when connection restored

Priority: SHOULD HAVE (Full Release)

6. Epic 6: Account & Security

6.1. US-6.01.017: Create User Account

As a tourist

I want to create an account

So that I can sync my data across devices

6.1.1. Acceptance Criteria

- Sign up with email or social login (Google, Apple)
- Email verification required
- Basic profile information (name, country)
- Terms of service acceptance

GDPR compliant

- Option to use app without account (limited features)

Priority: SHOULD HAVE (MVP)

6.2. US-6.02.018: Rate Limiting Protection

As a system

I want to limit excessive requests from single users

So that the service remains available and costs are controlled

6.2.1. Acceptance Criteria

- Maximum 20 photo recognitions per hour per user
- Soft limit warnings at 15 requests
- Clear message when limit reached
- Limit resets after cooldown period
- Different limits for free vs. premium users (if applicable)
- Fair usage policy displayed

Priority: MUST HAVE (MVP)

7. Epic 7: Partner Management (Admin)

7.1. US-7.01.019: Register as Partner Venue

As a business owner

I want to register my venue as a partner

So that I can attract tourists through the app

7.1.1. Acceptance Criteria

- Partner registration form (business details, location, contact)
- Upload venue photos and description
- Set discount offers
- Await approval from admin
- Receive partner QR scanner access
- Accept partnership terms and conditions

Priority: MUST HAVE (MVP)

7.2. US-7.02.020: Manage Partner Offers

As a partner venue

I want to create and modify discount offers

So that I can run promotions for app users

7.2.1. Acceptance Criteria

- Create new offers with percentage/amount
- Set validity periods
- Enable/disable offers
- View redemption statistics
- Receive notifications when offers are redeemed
- Schedule seasonal/event-based promotions

Priority: SHOULD HAVE (MVP)

7.3. US-7.03.021: View Partner Analytics

As a partner venue

I want to see how many tourists visited through the app

So that I can measure ROI of the partnership

7.3.1. Acceptance Criteria

- Dashboard with redemption counts
- Time-based analytics (daily, weekly, monthly)
- Peak usage times
- Average discount value
- Export reports as CSV
- Compare performance with previous periods

Priority: COULD HAVE (Full Release)

8. Epic 8: Content Management (Admin)

8.1. US-8.01.022: Add/Edit Attraction Information

As an admin

I want to add or update attraction information in the database

So that users receive accurate descriptions

8.1.1. Acceptance Criteria

- Admin portal for content management
- Form to add new attractions with details
- Edit existing attraction information
- Upload reference photos for training
- Publish/unpublish attractions
- Version control for content changes

Priority: MUST HAVE (POC)

8.2. US-8.02.023: Moderate Partner Content

As an admin

I want to review and approve partner venue submissions

So that only legitimate businesses appear in the app

8.2.1. Acceptance Criteria

- Queue of pending partner applications
- View business details and documentation
- Approve or reject with reasons
- Notify partners of decision
- Suspend partners for policy violations
- Audit trail for all moderation actions

Priority: MUST HAVE (MVP)

9. Epic 9: Future Enhancements & Nice-to-Have Features

9.1. US-9.01.024: Trip Planning & Itinerary

As a tourist

I want to plan my trip with multiple attractions and create an itinerary

So that I can organize my visit efficiently

9.1.1. Acceptance Criteria

- Add multiple attractions to a trip plan
- Reorder attractions in itinerary

Calculate total walking/travel time

- Suggest optimal route between attractions
- Save multiple trip plans
- Share itinerary with travel companions
- Export to calendar

Priority: FUTURE ENHANCEMENT

9.2. US-9.02.025: Augmented Reality (AR) Navigation

As a tourist

I want to use AR to see directional arrows to nearby attractions

So that I can navigate more intuitively in unfamiliar areas

9.2.1. Acceptance Criteria

- AR camera view with overlay directions
- Points to nearby attractions within 500m
- Shows distance and name in AR view
- Works with device compass
- Smooth AR experience (60fps minimum)
- Battery optimization mode

Priority: FUTURE ENHANCEMENT

9.3. US-9.03.026: Social Features & Travel Community

As a tourist

I want to connect with other travelers and see their recommendations

So that I can discover hidden gems and share experiences

9.3.1. Acceptance Criteria

- User profiles with travel statistics
- Follow other users
- See friends' recent visits and reviews
- Like and comment on shared attractions
- Create and join travel groups
- In-app messaging
- Privacy controls for sharing

Priority: FUTURE ENHANCEMENT

9.4. US-9.04.027: Gamification & Achievements

As a tourist

I want to earn badges and achievements for visiting attractions
So that I can make my travels more engaging and memorable

9.4.1. Acceptance Criteria

- Unlock badges for milestones (first attraction, 10 attractions, etc.)
- City-specific achievements
- Leaderboards by country/city
- Special rewards for visiting partner venues
- Share achievements on social media
- Seasonal challenges and events

Priority: FUTURE ENHANCEMENT

9.5. US-9.05.028: Multi-Language Real-Time Translation

As a tourist

I want to use my camera to translate signs and menus in real-time
So that I can navigate foreign environments more easily

9.5.1. Acceptance Criteria

- Point camera at text for instant translation
- Supports 50+ languages
- Overlay translation on original text (AR style)
- Save translations for offline reference
- Pronunciation guide with audio
- Works with handwritten text

Priority: FUTURE ENHANCEMENT

9.6. US-9.06.029: Local Events & Festivals Calendar

As a tourist

I want to see upcoming events and festivals near attractions
So that I can plan my visit around special occasions

9.6.1. Acceptance Criteria

- Calendar view of local events

Filter by event type (festival, concert, exhibition, etc.)

- Get notifications for events near saved attractions
- Add events to personal calendar
- Purchase tickets through app (if available)
- Event recommendations based on interests

Priority: FUTURE ENHANCEMENT

9.7. US-9.07.030: Weather-Based Recommendations

As a tourist

I want to receive attraction recommendations based on current weather

So that I can adjust my plans for optimal experience

9.7.1. Acceptance Criteria

- Display current weather for user location
- Suggest indoor attractions on rainy days
- Recommend outdoor activities on sunny days
- Weather forecast for next 7 days
- Weather-based partner offers (e.g., "rainy day discount")
- Crowdedness predictions based on weather

Priority: FUTURE ENHANCEMENT

9.8. US-9.08.031: Accessibility Features

As a tourist with disabilities

I want to know accessibility information about attractions and venues

So that I can plan visits that accommodate my needs

9.8.1. Acceptance Criteria

- Wheelchair accessibility indicators
- Audio descriptions for visually impaired
- Visual alerts for hearing impaired
- Accessibility filters in search
- Partner venues show accessibility features
- User-contributed accessibility reviews
- Screen reader optimization

Priority: FUTURE ENHANCEMENT

9.9. US-9.09.032: Offline Map Downloads

As a tourist

I want to download maps of specific cities or regions

So that I can navigate without internet connection

9.9.1. Acceptance Criteria

- Select city/region for download
- Shows download size before proceeding
- Offline map includes all cached attractions
- Basic navigation available offline
- Regular map updates available
- Auto-update on WiFi
- Manage downloaded maps in settings

Priority: FUTURE ENHANCEMENT

9.10. US-9.10.033: Virtual Tours & 360° Views

As a potential tourist

I want to take virtual tours of attractions before visiting

So that I can decide which places to prioritize

9.10.1. Acceptance Criteria

- 360° panoramic views of major attractions
- Virtual walkthrough capability
- VR headset compatibility
- Narrated virtual tours
- Bookmark specific viewpoints
- Share virtual tour experiences
- Works on low-bandwidth connections

Priority: FUTURE ENHANCEMENT

9.11. US-9.11.034: Family & Group Management

As a family/group coordinator

I want to manage multiple user accounts under one plan

So that we can share itineraries and track each other

9.11.1. Acceptance Criteria

- Create family/group account
- Add up to 10 members
- Share trip plans across group
- Real-time location sharing (with permission)
- Group chat functionality
- Shared favorites and saved places
- Family discount tier pricing

Priority: FUTURE ENHANCEMENT

9.12. US-9.12.035: Voice Commands & Assistant Integration

As a tourist

I want to use voice commands to interact with the app

So that I can access information hands-free

9.12.1. Acceptance Criteria

- "Hey [AppName]" wake word
- Voice search for attractions
- Read descriptions aloud
- Navigate with voice commands
- Integration with Siri/Google Assistant/Alexa
- Multiple language voice support
- Background listening mode

Priority: FUTURE ENHANCEMENT

9.13. US-9.13.036: Transportation Integration

As a tourist

I want to see public transportation options to attractions

So that I can plan my journey using local transit

9.13.1. Acceptance Criteria

- Show nearby bus.metro/tram stops
- Display real-time transit schedules
- Purchase transit tickets in-app (where supported)
- Calculate journey time via public transport

- Show multiple route options
- Integration with local transit apps
- Walking directions to transit stops

Priority: FUTURE ENHANCEMENT

9.14. US-9.14.037: Smart Notifications & Reminders

As a tourist

I want to receive contextual notifications about nearby attractions

So that I don't miss interesting places while traveling

9.14.1. Acceptance Criteria

- Location-based push notifications
- "You're near [Attraction]" alerts
- Reminder about saved attractions nearby
- Partner offers when approaching venues
- Customizable notification preferences
- Quiet hours setting
- Battery-conscious geofencing

Priority: FUTURE ENHANCEMENT

9.15. US-9.15.038: Currency Converter & Budget Tracker

As a tourist

I want to track my spending and convert currencies

So that I can manage my travel budget effectively

9.15.1. Acceptance Criteria

- Real-time currency conversion
- Set daily/trip budget limits
- Track spending by category
- Receipt scanner (OCR)
- Budget alerts when approaching limits
- Multi-currency support
- Export spending reports

Priority: FUTURE ENHANCEMENT

9.16. US-9.16.039: Partner Loyalty Program Integration

As a frequent app user
I want to accumulate points across all partner venues
So that I can earn rewards for my loyalty

9.16.1. Acceptance Criteria

- Points earned per QR redemption
- Tiered loyalty levels (Bronze, Silver, Gold)
- Exclusive offers for loyalty members
- Points redemption for discounts
- Birthday/anniversary special offers
- Refer-a-friend bonus points
- Points never expire

Priority: FUTURE ENHANCEMENT

9.17. US-9.17.040: Emergency Information & SOS

As a tourist
I want to access emergency services and embassy information
So that I can get help if needed in a foreign country

9.17.1. Acceptance Criteria

- Quick access SOS button
- Local emergency numbers by country
- Nearest hospital/police station
- Embassy contact information
- Share location with emergency contacts
- Offline access to emergency info
- Medical information profile
- Travel insurance integration

Priority: FUTURE ENHANCEMENT

10. Priority Summary

10.1. POC (Proof of Concept)

US-1.01.001: Photo Recognition (with upload)

- US-1.02.002: Text Description
- US-8.01.022: Admin Content Management

10.2. MVP (Minimum Viable Product)

- US-1.03.003: Audio Description
- US-1.04.004: Unknown Attractions (with GPS suggestions)
- US-2.01.005: Nearby Partners (with offers)
- US-2.02.006: Partner Details
- US-2.03.007: Directions
- US-3.01.008: Generate QR
- US-3.02.009: Redeem Discount
- US-4.01.011: Language Selection
- US-5.01.015: Cache Searches
